RE: Waiver request for Syniverse Networks, Inc. -- Arizona Corporation Commission Docket No. T-04202A-03-0612, Decision No. 66638.

To Whom It May Concern:

Syniverse Networks, Inc. was granted a certificate of public convenience and necessity to resell private line services in the State of Arizona in the above referenced docket. Syniverse Networks, Inc. is a reseller of private line telecommunications in Arizona; we price our service on an individual case basis. Syniverse negotiates contract rates with our customers and we do not collect deposits from customers. In addition, we require contracts with customers to provision resold services. For these reasons, and in conjunction with practices of the Arizona Corporation Commission, Syniverse respectfully requests a waiver from any previous "performance bond" requirements by the ACC to operate as a reseller of private line services in Arizona. Syniverse Networks, Inc. is delighted to provide additional information regarding our resold private line offerings, if requested.

Attached please find this original plus thirteen (13) copies of our waiver request. Please review this information; I hope this satisfies Commission requirements to facilitate our waiver request. Again, please do not hesitate to contact me with any questions or any request for additional information.

Sincerely,

David J. Robinson  
Syniverse Technologies, Inc.
